LAUREL SIDE

Amazon
Amazon is burning tonight
No end in site
Cut down the trees,
Put it in a box and ship it to me
Lungs of the Earth
Amazon

Block Chain
Cryptocurrency
Death 2 Money
Block Chain
Give it no sound bury it in the ground
Network code bait screens
Dark trade pyramid schemes
Topple regimes
Spread wealth 2 a new elite
Open borders Lock the labor
Block Chain

Heating Up
Heating up Melting down Sexy as we go
Hot beer Sunblock Firehose
Watch it crash watch it splash as we pass
Chokin floatin no snow
Perfect body Swimsuit Perfect destruction
Last selfie on Earth
No one to see it

Anthropocene
Complacency Anthropocene
Man burns the bones Turn him to stone
Earth will redeem Anthropocene

Hi ees

Everywhere I Turn
Absent not present somewhere else I slip
Melodies and beats words fill my absence
Lost in sounds staying mute shudder upon return
Missing my mistake turns up too late, it's gone
It is gone
Looking for the my loss looking for my mistake.
A weight tears a hole in my pocket
Filled with dread self anger a hole grows deep inside.
Everywhere I Turn
A Void

Vaccine
Vaccine back on the scene
Taking off my mask, leave it at the door
Opening up like it was before
Packing shaking breathing it in
Depleting our resources over again
Fires and floods there will be blood
Just a test for the human mess
What is the vaccine
For humanity?

MANHOLE SIDE

Breath of Fear
Bubonic tectonic waves of collapse
Invisible death coughs casting a net of vapor
Landing as I inhale
Every breath of fear penetrates me
Quarantine
Every faucet every grip every handle every surface
Every card every screen every dollar every thing
Don't touch me, please help me survive
Collective organism resist apply pressure survive

End of Cars
Plastic oil bent corrosive shells of man
Smash crash spray in fumes just to move
End of cars no more street back to our feet

Peel squeal make em bleed can't even breathe
Anger amplified rage justified run em over for an order
Smash crash spray in fumes just to move
End of cars no more streets back to our feet

Growin Old
Growin old growin sore
White hairs wrinkles in my tears veins poppin out
Discolored skin will I win? Wisdumb
Growin old growin sore
Will I learn to turn me around?

2020 Election Night Eve

VR Death Mask
VR Death Mask ready to go
VR Death Mask make it slow
Put on, turn on, tune in, black out
360, visual end, Death creeps every turn

Electric make my body ache simulate my end
Uncontrolled, method unknown, surrender fear, Let go
Heart beats slow. Vitals shut down. Last gasp
End of Night End of Light
End of Light End of Life

Supremacidal Tendencies
Supremacidal Supremacidal Tendencies
Invasive seeds spreading in the US and Germany
Like a fertilizer bomb made by Timothy McVeigh
That killed mass civilians with support of militias
Storming capitals today for pandemic ways
Radicalized by mass conspiracy
Capitalist algorithms amplify the lies
As they carry zip ties

Shine a light on the source Steps crushed under force
Glass smashed in doors with shields and poles
Heads scream in agony
Root it out
Remove its face
Cut it at the Base
