INFERNO
Force fed plastic like a goose by a fish
until your stomach explands and explodes
plunged head first in the dirt by a tree
feet lit on fire while you can't breathe
tossed in a pit full of shit with thousands who scream
while machines cut off their nose
clear cut your family to stumps
while your left to wither and die alone
inbred birthbed a psychotic mutant untamable sick and violent
inject disease to grow another head
while you fight to claw out your eyes
